

GLOBAL ENTERPRISE GRC PLATFORM

ISO 27001 COMPLIANT
CERTIFIED

ISO/IEC 27001:2022 CERTIFIED AUDIT REPORT • REF: AUD-2026-ISO-01

1. EXECUTIVE SUMMARY & ASSESSMENT SCOPE

This official Information Security Management System (ISMS) audit report documents compliance against the ISO/IEC 27001:2022 standard requirements and Annex A security controls. The assessment evaluated enterprise infrastructure, user authentication controls, asset segregation, and vulnerability response protocols.

TARGET ASSESSMENT SCOPE Production Infrastructure, Data Centers & IAM Access	ASSESSMENT STANDARD ISO/IEC 27001:2022 / ISO 19011 Guidelines
OVERALL COMPLIANCE RATE 94.2% Satisfactory	LEAD CERTIFIED AUDITOR Arthur Auditor (IRCA Cert #89012)

2. STATEMENT OF APPLICABILITY (SOA) CONTROL EVALUATION

ISO Control Code	Control Description	Status	Compliance Score
A.5.15	Access Control & Identity Management	Implemented	98%
A.8.1	User Endpoint & Hardware Asset Inventory	Implemented	100%
A.8.20	Network Security & Perimeter Firewalls	Partially Implemented	85%
A.5.24	Information Security Incident Management	Implemented	95%

3. AUDIT NON-CONFORMITIES & CORRECTIVE ACTION MATRIX

Finding Code	Non-Conformity Description	Severity Level	Mandatory Corrective Action	Target Closure
NC-01	Staging VPN Endpoint lacks enforced MFA for contractor accounts.	MAJOR NC	Enforce mandatory SSO/MFA policies on all UAT/Staging VPN gateways.	2026-02-28
NC-02	Quarterly privilege access review sign-off delayed by 14 days.	MINOR NC	Automate privilege access review reminders via GRC Ticket Engine.	2026-03-15
